<<Symphonies Nos. 6 an>>

内容概要

While the immense popularity of Dvorak's Symphony No. 9, "From the New World," has somewhat overshadowed his other symphonic works, the two symphonies reprinted here are superb compositions in their own right. Indeed, the Symphony No. 7 in D Minor is considered by many music authorities to be Dvorak's finest achievement in the symphonic form. Its strong, concise development, great emotional depths and heroic spirit have won the work many admirers among critics and public alike. Regarding the Symphony No. 6, Grove's Dictionary has this to say: "The joyous Symphony in D Major, Op. 60, full of the fragrance and melody of the Czech fields and forests, full of light and cheerful courage, with the furiant in the scherzo, is a work of striking originality." This handsome, durable volume affords music lovers the opportunity to study these great scores, carefully and accurately reproduced from an authoritative German edition. Unabridged Dover (1994) republication of the edition published by N. Simrock, Berlin, 1882 and 1885. 288pp. 9 3/8 x 12 1/4. Paperbound.
