<<高血压重点Hypertension in>>

内容概要

Pharmacists have a vital contribution to make in disease and medicines management. It is vital for all community pharmacists to provide patients with authoritative information on prescribed drugs. Hypertension in Focus takes a unique approach by aiming to inform pharmacists, as part of the healthcare team, about the scientific concepts applicable for the effective medicines management and lifestyle choices of patients with hypertension. This book will be of interest to all community pharmacists, pre-registration and undergraduate students.

书籍目录

About the author
