<<泌尿科内镜检查要点Essential U>>

内容概要

Leading academic urologists and physicians detail how to perform the major adult urologic laparoscopic procedures. The authors offer clear, concise chapters focusing on getting started, laparoscopic instrumentation, and step-by-step procedural adult laparoscopy. The instrumentation chapter is completely cross-referenced so that operating room and hospital personnel can use the book as a comprehensive reference guide for most laparoscopic procedures. The procedures range from the simple to the advanced and include the transperitoneal, retroperitoneal, and hand-assisted approaches to laparoscopic radical nephrectomy-the gold standard for most renal pathology.

书籍目录

Preface List of Contributors 1 Getting Started in Laparoscopy 2 Laparoscopic Instrumentation 3 Operating Room Set-Up and Accessing the Abdomen 4 Laparoscopic Pelvic Lymphadenectomy 5 Laparoscopic Renal Cyst Decortication 6 Laparoscopic Simple Nephrectomy: Transperitoneal and Retroperitoneal Approaches 7 Laparoscopic Radical Nephrectomy: Retroperitoneal Approach 8 Laparoscopic Radical Nephrectomy: Transperitoneal Approach 9 Laparoscopic Radical Nephrectomy: Hand-Assisted 10 Laparoscopic Partial Nephrectomy 11 Laparoscopic Nephroureterectomy 12 Laparoscopic Adrenalectomy 13 Laparoscopic Live Donor Nephrectomy 14 Laparoscopic Pyeloplasty 15 Laparoscopic Radical Cystectomy and Urinary Diversion 16 Laparoscopic Radical Prostatectomy: Transperitoneal Approach 17 Postoperative Management and Complications of Laparoscopy Index
