<<巴金文集（第4卷英文）>>

内容概要

"The baby was originally given to your sister-in-law. Thinking she might not treat him properly , I am giving him to you." This was what Mother had been told by the goddess of childbearing in her dream. She often recounted to we brothers and sisters (and sometimes my nanny too) that strange dream of hers while doing her sewing in her south-facing room after midday on a fine day.
