## 内容概要

《From Training to Education: New Pedagogical Models in Dialogue》 is written by Xiaozhou Xu, as follows : The importance of Technical and Vocational Education ( TVE ) to the world development is just like what was said in Technical and Vocational Education and Training: A Vision for the Twenty-First Century, a report to the Second International Congress on TVE organized by UNESCO: Technical and Vocational Education ( TVE ) has a crucial role to play in this area as an effective tool to realise the objectives of a culture of peace, environmentally-sound sustainable development, social cohesion and international citizenship. In the era of knowledge economy, the comprehensive strength of a country lies more and more in the professional qualifications and professional skills of its workforce. Every country in the world, therefore, has been seeking the mode of optimizing technical and vocational development.
