### 前言

教育部2007年颁布了《大学英语课程教学要求》（以下简称《教学要求》），对大学英语教学目标做出了定性、定量的要求，并将大学英语教学分为三个层次：一般要求、较高要求和更高要求。具体如下表所示：英语快速阅读能力的培养与提高是大学英语教学的重要内容，也是衡量大学生英语水平高低的重要指标。

为进一步深化大学英语教学改革，提高教学质量，应对新形势、新挑战，我们依据教育部2007年的《教学要求》，以外语教学理论为指导，以英语语言知识与应用技能、跨文化交际和学习策略为主要内容，编写了这套《新世纪新编大学英语快速阅读》（以下简称《快速阅读》）。

本套教材有助于学生在就业时和将来的工作、生活以及社会交往中，运用英语进行有效的口头和书面交流，同时增强学生的自主学习能力，提高综合文化素养。

章节摘录

One way to reduce the number of trees being cut down for making paper is to recycle paper. In this process the recycled paper is turned back into pulp ( 纸浆 ). It gets mixed in with new pulp and turned into new types of paper. This is done so that the overall quality of the paper is still very good. When paper is recycled the fibers can weaken. Mixing them with new pulp improves the quality of the end product. Paper recycling is simple because everyone uses paper and you are most likely to be able to find paper recycling bins around the community. In addition to recycling the paper you use in your daily activities, reducing the amount of paper you consume is beneficial as well. A great way of reducing paper use is to go paperless as much as possible. Just about every bank, utility company, mortgage company, and credit card group offers a paperless way to take care of business. Paying bills and managing accounts online save the paper the invoices and statements are printed on as well as save you the expense of a postal stamp. While no one wants to run the postal workers out of jobs, it just makes more sense to take care of business online wherever possible. Its faster for you, saves tons of paper, and saves money in postal costs.
