内容概要

William R. Stanek has 20 years of hands-on experience with advanced programming and development. He is a leading technology expert and an award-winning author. Over the years, his practical advice has helped millions of programmers, developers, and network engineers all over the world. He has written more than two dozen computer books. Current and forthcoming books include Microsoft Windows XP Professional Administrator's Pocket Consultant, Microsoft Windows 2000 Administrator's Pocket Consultant 2nd Edition, Microsoft Windows Server 2003 Administrator's Pocket Consultant, and IIS 6.0 Administrator's Pocket Consultant. Mr. Stanek has been involved in the commercial Internet community since 1991. His core business and technology experience comes from more than 11 years of military service. He has substantial experience in developing server technology, encryption, and Internet solutions. He has written many technical white papers and training courses on a wide variety of topics. In addition, he is widely sought after as a subject matter expert. Mr. Stanek has an MS in Information Systems with distinction and a BS in Computer Science with highest honors. He is proud to have served in the Gulf War as a combat crew member on an electronic warfare aircraft. He flew on numerous combat missions into Iraq and was awarded nine medals for his wartime service, including the Air Force Distinguished Flying Cross, one of the highest flying honors in the United States. Currently, he resides in the Pacific Northwest with his wife and children.
