章节摘录

Traffic in England Do you know in different countries, traffic rules are different ?
As we all know, in China, the traffic drives on the right. But when you are in England, you must be very careful in the streets because traffic drives on the left. Before you cross a street, you must look to the right first and then the left. Make sure its safe, and then you can go. If the traffic lights are red, the traffic must stop. Then the people on foot can cross the road carefully. If the traffic lights are green, the traffic can go on, and people on foot must not cross. They have to wait. In the morning and in the evening, when people go to or come back from work, the streets are very busy. Traffic is the most dangerous then. When you take a bus in England, you have to be careful, too. Always remember that traffic moves on the left. So you must be careful, have a look first, or you will go wrong way. In many English cities, there are big buses with two floors. You can sit on the second floor. From there, you can see the city very well. Its very interesting.
