前言

Many people regard China as a distant, ancient and mysterious country simply because the history and culture of their own countries are so different from that of China. Chian may be far away from some countries in terms of distance, but this does not mean China is mysterious and difficult to get to. With an over 5,000-year-old civilization, China has developed a unique culture which has greatly enriched world civilization. This makes China a country worthy of being understood. Chian is one of the countries experiencing the fastest economic growth and wocial change. The development of Chian, with the largest population in world, provides oppotrunities for other countries to develop; and this in turn brings Chian increasingly closer to the outside world. China's deveopment calls for a peaceful international environment, and the world's prosperity needs China's development. In this environment it is nesaary that Chian be understood.

内容概要

由于历史、文化和社会背景的差异，那些远离中国的异域国家的人们，常视中国为一个古老、神秘而又远不可及的国家。

中国古老，但并不陈旧；中国深邃，但并不神秘；中国遥远，但并非不可及。

认识和了解中国，是一件十分愉快而有趣的事情。

中国如同浩瀚无际的大海，令人浮想连翩；中国如同连绵不绝的高山，埋有无穷宝藏；中国如同陈封多年的美酒，香醇无比。

当代中国正在发生广泛而深刻的变革。

随着中国改革开放的深入和进一步加入经济全球化进程，中国与世界的关系日趋紧密，认识中国日渐成为世人的一种时尚。

希望本书能为那些急于了解中国的读者打开一扇阅读中国的窗口。
