章节摘录

The story of Dracula begins with a young man called Jonathan Harker. He has gone to Transylvania to work. He has gone there to sell a house in London to the owner of a strange castle. He soon finds that the castle and its owner are very strange. The owner, Count Dracula, is a vampire. He has no reflection, does not eat or drink and never sleeps at night. Jonathan tries to leave the strange castle but finds that Dracula has gone. He has locked the doors and Jonathan cannot get away. Later in the story, Count Dracula arrives in England. His boat lands at a place called Whitby. The writer, Bram Stoker, had been to Whitby too. He described Whitby in his Dracula story. He described the ruined Abbey as full of beautiful and romantic bits. You can still visit the Abbey in Whitby. He also described the river, the graveyard and the harbour. There is now a popular museum in Whitby called the Dracula Experience. You can go there to learn more about the story of Dracula and Whitby. You will learn about the life of Bram Stoker, the author.
