### 前言

研究生英语的教学目标是为了使学生掌握英语这门工具，培养和提高学生的阅读能力和运用英语的能力，具有较高的听、说、读、写、译水平，从而顺利进行本专业的学习、研究与国际交流。

近年来，哈尔滨工业大学的硕士研究生培养制度进行了重大改革，从三年制改成两年制，教学学时的相应减少对硕士研究生英语的教学工作提出了更高的要求。

因此，在硕士研究生英语读写的教学过程中，要求课堂的输入质量必须相应提高，要在有限的课堂教学中，有效地提高学生的英语应用能力。

针对这种要求，我们着手编写了《研究生英语读写教程》。

2.达到大纲要求紧扣教学大纲，以能力培养为出发点进行课堂英语教学。

3.培养应用能力读写并重，注重语言应用能力的培养。

在大量阅读的基础上，提高学生的写和说的能力，培养学生的国际学术交流能力。

4.强调理解应用注重阅读文章的文体理解和欣赏，注重语言知识的灵活运用。

5.内容引人入胜语言地道、表达准确；话题广泛、内容新颖、时代感强，题材接近学生。

本书在内容选择上，以科技英语为主线，以国际学术交流为导向，围绕学生所需要的英语知识，启发学生演讲和写作的灵感。

同时，注重高质量的英语输入，帮助学生构建外语知识体系，培养学生的英语自主学习能力。

本书所选文章均为原汁原味的英语佳作。

## 章节摘录

The third dimension Hofstede indicated is individualism, the concern for yourself as an individual as opposed to concern for the group. The priority of self-oriented or group-oriented varies between different cultures. For example, most western employees like to work with their own plan for defending their interest. This is considered high individualism. Because of different attitudes toward work, "the incubator culture" arises when individuals from different cultures work together as a group. Trompenaars told us, "the incubator is both personal and egalitarian." People do not cooperate at all. They just simply work in their own ways, follow their own rules, and achieve their own objective. They do not like others to interfere. It is good for a company to gather as many ideas as they can when starting a new program. But how these individuals are managed to reach the group goal should be important for managers. Finally, Hofstede pointed out masculinity. This regards sexual inequality. According to Hofstede's definitions, masculine societies define gender roles more rigidly than feminine societies. In business, managers should be aware of the treatment of different sexes under different cultural influences. In today's world, because of the masculine value and point of view, males take most senior managing positions. But, an experienced manager is supposed to know that it is harmonious when men work with women since women are sometimes more sensitive. Therefore, balancing masculinity/femininity from different cultures and backgrounds can maximize team power. The above four dimensions illuminated the most important cultural differences that affect business. International managers should be able to be aware not only of the cultural differences but also intercultural communication. ....
