## <<汽车专业英语>>

### 内容概要

本书根据高等职业技术学院教学实际编写而成，以汽车类专业学生所需要的词汇和短语为主，内容涵盖汽车文化、构造、检测、保养、维修等知识。

主要内容包括：汽车基本知识、汽车发动机、曲柄连杆机构、发动机燃油系统、发动机冷却与润滑系统、发动机进排气系统、柴油发动机燃油系统、混合动力汽车、传动系、制动系、转向系与行驶系、充电与启动系统、点火与汽车空调系统、保养维修手册、用户手册等。

本书每一单元附有补充阅读材料，书后附有汽车缩略词语表及汽车常用名词。

本书可作为高职高专院校汽车类专业的教材，也可作为汽车销售及汽车维修人员自学专业英语的参考书。

## 书籍目录

Unit 1 Automobile Overview Part 1 Automobile classifications Part 2 SANTANA 2000 GSI technical data  
Reading material Kinds of carsUnit 2 Automobile Basics Part 1 Structure of automobile Part 2 Logos of  
automakers Reading material The history of automobileUnit 3 Automotive Engine Part 1 Engine types and  
operating Part 2 Engine specifications Reading material The components of the engineUnit 4 Crank and  
Connecting Rod Mechanism Part 1 Piston, connecting rod and crankshaft Part 2 Cylinder block Reading  
material Valves and valves trainUnit 5 Engine Fuel System Part 1 Fuel injection system Part 2 Petrol engine fuel  
system Reading material Direct petrol injectionUnit 6 Engine Cooling and Lubrication Systems Part 1 Engine  
cooling system Part 2 Engine lubrication system Reading material Lubrication system service and  
maintenanceUnit 7 Engine Intake and Exhaust Systems Part 1 Engine intake air system Part 2 Engine exhaust  
system Reading material Three-way catalytic converter ( TWC)Unit 8 Diesel Engine Fuel System Part 1  
Common rail diesel injection system Part 2 Principles Reading material History of common rail direct fuel  
injectionUnit 9 Hybrid Electric Vehicle Part 1 HEV basics Part 2 The operation of HEV Reading material  
Hybrid electric vehicles maintenanceUnit 10 Transmission System Part 1 Overview Part 2 Automatic  
transmission Reading material Manual transmissionUnit 11 Braking System Part 1 Braking system Part 2 ABS  
( Anti-lock Braking System) Reading material Electronic stability program ( ESP ) functionUnit 12 Steering  
System and the Running Device Part 1 Steering system Part 2 The running device of automobile Reading  
material Power steeringUnit 13 The Charging and Starting Systems Part 1 Charging system Part 2 Starting  
system Reading material Starting and charging system maintenanceUnit 14 Ignition and Air Conditioning  
Systems Part 1 Ignition system Part 2 Air conditioning system Reading material Distributorless ignition  
systemsUnit 15 Automotive Safety Part 1 Automotive safety introduction Part 2 Air bags Reading material  
Electronic immobiliserUnit 16 CAN-bus System Part 1 Controller area network Part 2 Data transmission  
Reading material A short trip on the CAN busUnit 17 Vehicle Self-diagnosis Part 1 Self-diagnosis Part 2 OBD  
( On-Board Diagnostic ) systems Reading material Trouble shootingUnit 18 Service and Repair Manual Part 1  
How to proceed with trouble shooting Part 2 Check the engine oil level Reading material Looking for leaksUnit  
19 Owner's Manual Part 1 Starting the engine Part 2 Controls near the steering wheel Reading material  
Identification numbersAppendix Glossary 名词缩写 常用名词
