内容概要

本书由部分省市优秀教学设计大赛获奖作品选编而成。

作者简介

任志鸿，北京师范大学汉语言文学专业学士，助学读物最著名的策划人之一，志鸿优化系列丛书总主编。

书籍目录

Unit1 Cultural relics

Unit2 The Olympic Games

Unit3 Computers

Unit4 Wildlife protection

Unit5 Music

章节摘录

备课资料 Background information on music , musicians and the band "The Monkees" 1. Different types of music and music of different places: Folk music It has been passed down from one generation to another. At first it was never written down. People learned the songs from their families , relatives , neighbors and friends in the same village. These songs were about the country life , the seasons , animals and plants , and about love and sadness in people's lives. Pop music It is a kind of modern music with a strong beat and it is especially favored just for a short time by younger people , Rock 'n' Roll It is also called "rock and roll" , a kind of modern music with strong beat , it is often played loudly on electrical instruments , in which the singer repeats the same few simple words. Jazz Jazz was born in the USA around 1890. It came from work songs sung by black people and had its roots in Africa. Jazz started developing in the 1920s in the southern states. Soon it was played by white musicians , too , and reached other parts of the USA. African music It plays an important part in people's lives , especially for work , and at festivals and weddings , when people dance all night long. Indian music It's not written down. There is a basic pattern of notes which the musician follows. But a lot of modern music is also written. India also produces films with music , and millions of records are sold every year. Music in the Caribbean The slaves who were brought from Africa developed their own kind of music. West Indians made musical instruments out of large oil cans. They hit different parts of the drum with hammers to produce different notes. This type of music has become very famous in Britain and is very good kind of music to dance to. 2. Famous musicians: Joseph Haydn (1732-1809) was an Austrian composer and is known as "the father of the symphony". Other composers had written symphonies before Haydn , but he changed the symphony into a long piece for a large orchestra. He was born in a village in Austria , the son of a peasant. He had a beautiful singing voice. After studying music in Vienna , Haydn went to work at the court of a prince in eastern Austria , where he became director of music. Having worked there for 30 years , Haydn moved to London , where he was very successful. Wolfgang Amadeus Mozart (1756-1791) was a composer , possibly the greatest musical genius of all time. He only lived 35 years and he composed more than 600 pieces of music. Mozart was born in Salzburg , Austria. His father Leopold was a musician and orchestra conductor. Wolfgang had musical talent from a very early age. He learned to play the harpsichord when he was four , and when he was six , he played the harpsichord in a concert for the Empress of Austria.
