章节摘录

I think pursuing fashion is nothing more than a waste of time and money. Many women squander (浪费, 乱花) vast sums of money each year to replace clothes that have hardly been worn. Although first impressions are important in our daily life, they can be changed by further communication. Therefore, the most important thing for us to pursue (追求) is inner quality rather than fashionable clothes. Every woman wants to show her best, and it's rare that one is completely happy about her body. If you feel uncomfortable about your weight, dressing to look slim will be important. The following three tips can make your dream come true:

Wear the right size Wear clothes that fit your figure (身材), not clothes that draw attention to the wrong places. If clothes are too tight, all the bulges, or any other flaw you may have will show through. If clothes are too big, they add bulk and can make you look heavier than you actually are.
