内容概要

Gynaecology In Practice is written for those doctors starting their career in this specialty. The text presents a succinct account of the subject concentrating on diagnostic techniques, treatment and management. Throughout extensive use is made of colour photographs, drawings, lists and tables. The aim is to provide a 'bridge' between introductory undergraduate texts and the very large and expensive major reference works. Wherever possible evidence-based treatment options are given and referenced. A detailed list of further reading is also provided. Each chapter ends with clinical cases and associated questions to reinforce the contents of the chapter. * Abundant color photographs, drawings, bullet points, boxes, lists, and tables help to make the material easy to absorb. * Evidence-based treatment options are provided and referenced wherever possible. * Detailed bibliographies point the way to sources for additional reading. * Clinical case studies and questions at the end of each chapter help readers to master the content.

作者简介

Margaret Rees, Honorary Senior Clinical Lecturer, Department of Obstetrics and Gynaecology, John Radcliffe Hospital, Oxford, UK; and Sally Hope, General Practitioner, Oxford, UK.

编辑推荐

强力推荐！

英国医学会（British Medical Association, BMA）优秀出版物奖获奖作品！

对毕业后专科医师培训的迫切需求促使作者编写本系列图书。

作为“学校课本”与“专业巨著”之间的衔接性桥梁，本系列图书并未试图面面俱到，而是重点突出、繁简得当、深入浅出地以读者友好的方式娓娓道来，实则作为一种升华。

当读者掌握书中知识后，还可参见书中各章末所附的“深度阅读”，以深入学习和研究。

本系列图书的体例、格局活泼、洒脱，不拘泥程序，不强调平衡。

书中有提要、有小结、有咨询，概念新而实用、内容权威、可读性强，涵盖了所有常见、重要的疾病，这对有一定经验的医生或初学者都繁简不嫌，易于接受。
